

St Ignatius Catholic Primary School

Autumn 1 Curriculum Map

Year 4

Mr Bennett, Mrs O'Neill and Mr Penson

ENGLISH:

During our first half term, we will be focusing on the Place value of Punctuation and Grammar where we will be working on syntax (how sentences are created) and transcription (our spelling and handwriting). We will be looking at spelling rules and how words change when we add affixes. For our reading lessons, we will be looking at a wide variety of short texts and working on our vocabulary and comprehension skills.

HISTORY:

Children will be Investigating the changes in children's lives through time, children learn how children's spare time, health and work have changed. They explore work in more detail, learning about a day in the life of a working child and the significance of Lord Shaftesbury in changing the lives of children.

COMPUTING:

Learners will apply their knowledge and understanding of networks, to appreciate the internet as a network of networks which need to be kept secure. They will learn that the World Wide Web is part of the internet, about who owns content and what they can access, add, and create. information.

MUSIC: Children will explore the rainforest through music and be introduced to new musical terms. They will also use a mixture of body percussion and tuned percussion instruments as the children create their own rhythms of the rainforest, layer by layer.

ART:

Using mechanical engravings as a starting point, pupils develop an awareness of proportion, composition and pattern in drawing and combine media for effect when developing a drawing into a print.

SPANISH:

In unit 1, children will be working towards holding a simple conversation with a partner, asking the question as well as being able to answer it. Being able to present themselves in Spanish. Saying what they are called, how old they are, where they live and their nationality.

MATHS:

Children will develop their understanding of Number, which includes Place Value, Addition & Subtraction and Multiplication & Division. They will learn to understand Roman Numerals up to 100. Recognise the place value of each digit in a four-digit number, order and compare numbers beyond 1000. Add and subtract numbers with up to 4 digits using formal written methods. Estimate and use inverse operations to check answers. Recall and use multiplication and division facts for multiplication tables up to 12 x 12. Count in multiples of 6,7,9,25 and 1000.

SCIENCE:

Children will learn about Animals (including humans) focusing on describe the simple functions of the basic parts of the digestive system in humans. This will include making a digestive system and thinking about the journey food takes through the body. They will identify the different types of teeth and their simple functions. The children will design an experiment to investigate tooth decay whilst making predictions and drawing conclusions from their results. Pupils will construct and interpret a variety of food chains, identifying producers, predators and prey.

RELIGIOUS EDUCATION:

Children will learn about Creation and Covenant and answer the big question; "How does Abraham inspire my faith?". Children will learn about the story of Abraham and his covenant with God. They will think about how Abraham showed faith by trusting in God's plan by travelling to a new country and God's request to sacrifice his son Isaac. Children will recognise that God's covenant with Abraham is the foundation in faith of Judaism and Christianity.

PE:

Children will learn about how to stay healthy and physically active through a range of different fitness activities. Children will learn about activities that can be used to raise the heart rate and understand why this is important to stay healthy. where they will develop their skills of working in a team.

PSHE:

Children will begin with a unit of work on their relationships with others and then move on to a unit which covers the importance of valuing differences in society.
